

Class of 2021

Dear Community Leader:

The 2021 YEA! Program is underway and we have a great pool of young CEO's ready to conquer the real world of business!. Because I believe for our community to prosper, it is critical to develop that *entrepreneurial spirit* in our young people today. I'm counting on your support in our program will provide the 21<sup>st</sup> Century education and skills, innovation and business creation mindset to forever change our youth's future paths to success.

If your aims and goals are to take an active role in the lives of young people in our community, willing to provide the opportunity to gain useful tools, teach them critical life skills that will help them to succeed and thrive as productive adults, I believe there is no purpose more important than this.

The Young Entrepreneurs Academy (YEA!) is a ground-breaking program that takes students through the process of starting and running real businesses over the course of a 4-month program. YEA! students, as a class, visit area businesses, meet successful entrepreneurs, meet with professionals (attorneys, accountants, bankers, graphic designers, web developers, insurance providers, etc.), develop a business or social movement and work with mentors. Students then pitch their ideas "live" to a panel of investors made up of local business and community leaders with real dollars at stake to obtain real funding and take all of the steps necessary to, and then actually do, launch their venture.

Students participating in the YEA! program learn important life lessons and at the same time gain an appreciation that the skills they are learning in school have significant value in "real world" applications. YEA! students gain self-esteem, confidence, and practical experience in working through novel situations and challenges.

YEA!'s direct mission is to help students embrace their passion, energy, creativity and talents, and view entrepreneurship as synonymous with success and freedom. The magic is that YEA! teaches kids to believe in themselves, to think big, and to understand that they can achieve anything they set their minds to. In the process, YEA! students learn as much about leadership and self-empowerment as they do about planning, budgeting, and production. YEA! kids discover in themselves confidence, optimism, and capabilities they never knew they had. These remarkable and life-changing results are why I am writing to you about the YEA! program.

The Antelope Valley Chambers role includes the overall management of the program including people resources. We are providing the people for the necessary positions including program manager and instructors, and coordinating the involvement of highly respected business professionals as guest speakers, mentors, field trip hosts and judges for the big competition. We have partnered this year with Antelope Valley College, which provides our facility for classrooms, speakers and venues for special events.

The Antelope Valley Chambers of Commerce is requesting that you support this program as a Sponsor at a donation level of Investment Panel Partner or CEO Premier Sponsor. This donation will go to offset costs associated with the running of the program, and awarding start-up capital to our young CEO's. Please reference the following page to learn about the benefits that are offered with these sponsor levels. This program is delivered through our AV Chambers Education Fund a 501(C)3 non-profit foundation.

I hope that this is something we can count on you for and that you are excited about our program and interested in moving forward on together.

Sincerely,

*Mark Hemstreet*
